Attn: Mr. Donvic

Dear Mr. Donvic,

This letter is to thank Interior lab for the great renovation works you did for our new office located at Oxley Bizhub. The renovation works has greatly increased our office environment for the enjoyment of our colleagues in our new office.

Our company, CommGate, appreciate the quality of each aspect of the work that The Interior lab did, for your valuable ideas and inputs as the renovation works developed, and for the fact that the work was done within the budget and timeframe that we had set out, in spite of changes that were made as things went along.

The Interior Lab did what you said you would, in a timely manner. CommGate did not have to worry about whether things you had promised would be done, and we understand that not everyone can say this about their contractor. It was truly a pleasure working with you, your colleagues and your company, and we have no hesitation at all in recommending The Interior Lab to anyone who asks for renovation referral. On behalf of CommGate, we wish Interior Lab much continued success in your business.

Yours Sincerely,

Angeline YEE
